*When it comes to writing owner's manuals  
or translating, nobody does it better!*

## *Owner's Manual Creation*

Plain and simple, we write, illustrate, edit, translate and lose sleep until the job is done to your satisfaction, and meets your deadline. Our owner's manuals always include the latest UL, EIA and safety instructions. Short notice inquiries don't scare us. We can get a project started and finished well within deadline and make mass production with room to spare. Whether it's an instruction manual for a MP3 player or a high powered amplifier with center speaker and surround sound capabilities, feel at ease to know we can handle it from concept to completion.

- *Using your own company's employees to create your owner's manuals?*
- *Using an outside company to create your owner's manuals?*
- *Using the overseas translated manual?*

If the answer to any of these is yes, give us a call and let us show you how we can upgrade your manual so it is the best quality it can be and save you money!

## *Translating Services*

Including a second and /or third language in an owner's manual increases the product's appeal as it now can be utilized by a larger customer base. This enables more customers to use/buy your product.

T.C. Corp. translates into all major languages and then typesets the translation with the original illustrations for a professional and consistent appearance.

## **WHY T.C. CORP.?**

*Why choose us for creating your owner's manuals?*

- *User-friendly, written in plain English.*
- *Increased value and understanding of your product.*
- *Solidify brand recognition.*
- *Increased market share with future purchases.*
- *Meet your deadlines.*
- *Contract that can cover your current and future products.*
- *Easy-to-understand text, illustrations and artwork.*
- *Global appeal and market for your products with our translation services.*
- *Evaluate your product for basic operation before writing the manual.*
- *Decrease in product returns, thus saving you money, resulting in increased bottom line.*
- *Decrease in the quantity of customer service calls.*
- *Huge savings against your in-house manual writing as we take care of it (typesetting, graphics, proofreading and translation) and no need to pay salaries, health, disability, materials, office space, etc.*
- *Large base of satisfied customers and end users.*

*Will provide references.*
